Little steps to a greener world

Little by little

Little by little,
we're doing our bit
to make the world a
better place...

And at Earthborn we believe
that home is always a good
place to start.

So when it comes to decorating
children's spaces, it makes
sense to take a considered
approach to their world.

Whether you're planning a
scribble-friendly playroom or a
tranquil nursery, we know how
important it is that your little one
is safe and cared for.

Which is why we have lovingly
crafted our eco-friendly paints to
be free from harmful emissions
and Toy Safety approved.

Wonderful walls

Earthborn paints contain no hidden nasties, so you can effortlessly create a safe children's room without compromising on beautiful colour.

Our durable and washable **Lifestyle** emulsion is perfect for those busier areas in the home that are more likely to become marked (especially with little finger prints or mucky paws!)

With a hardwearing low sheen, its family friendly formulation is available in our signature colours.

Virtually VOC free with no unpleasant paint smells, our paints have great coverage and fast drying formulations... meaning your little one's room can return to normal in no time!

Claypaint is a highly breathable emulsion that's especially suited to older properties and lime plaster. With a high clay content, its distinctive flat matt finish enhances and softens the light in your room.

All this and it's Ecolabel accredited too.

All our paints are:

Well-dressed woodwork

Smarten up interior woodwork with our user friendly **Eggshell No.17**. Whether you choose a contrasting shade or keep things consistent, it will provide a durable, scuff resistant finish with beautiful silk sheen.
